

Responsible Use Agreement

When using information & communications technologies (ICT) at Gulf Harbour School

I will always be a good digital citizen. This means that:

I will be a confident and capable user of ICT.

I know what I can do with the technologies that I use. I am also aware of what I need to learn and will get help where I need it.

I will use ICT for learning.

I understand that technology can help me to learn. I also know it can also be used to talk to people, to buy and sell things and to have my opinion heard. I know when and where it is OK to do each one.

I will think carefully about whether the information I see online is true.

I know that it is easy to put information online. This means that what I see is not always right. I will check to make sure information is real before I use it.

I will be able to speak the language of digital technologies.

When people talk online the things they say can be quite different from a conversation they might have if they were sitting next to each other. I know that I must try to understand what people are saying before I react to them. If I am not sure, I can ask them or someone else to explain.

I understand that I may experience problems when I use technology but that I will learn to deal with them.

I understand that there will be times when technology may not work as I expected it to, or that people may be mean or unkind to me online. When these things happen, I know that there are ways I can deal with it. I also know there are people I can go to, to get help if I don't know what to do next.

I will always use ICT to communicate with others in positive, meaningful ways.

I will always talk politely and with respect to people online. I know that it is possible to bully or hurt people with what I say and do on the internet. I will think about the effect that my actions have on other people.

I will be honest and fair in all of my actions using ICT.

I will never do anything online that I know will hurt anyone. I will make sure what I do is not against the law. I will make sure that my actions don't break the rules of the websites that I use. When I am not sure about what I am doing I will ask for help.

I will always respect people's privacy and freedom of speech online.

I understand that some information is private. I will be careful when using full names, birthdays, addresses and photos of other people and of my own. I also know that I will not always agree with what people say online but that does not mean that I can stop them or use it as an excuse to be unkind to them.

I will help others to become better digital citizens.

Being a good digital citizen is something that we all have to work at. If I know that my friends are having problems online, I will try to help them. If I see that someone is being unfairly treated online then I will speak up rather than just watch it happen.

I understand that

All documents created using school devices or google accounts remains property of the school and as such permission should be sought from the Principal before sharing or removing any docs.

I understand and agree to all of the guidelines above and I also understand that if I do not follow them, I may lose access school equipment and/or be unable to bring in my own device.

If I bring my own device:

All devices brought to school are my responsibility and the insurance is my parent's responsibility.

Teachers will provide a locked cupboard in which I will place my device when not in use. If I do not use this facility then the school holds no responsibility for any loss or damage which might occur.

All devices need to arrive at school each day fully charged and I may bring a charger for use during the day if required.
